Research Experience

Drexel University, PhD Student — Philadelphia, PA — Sept 2024 – present
- Lead two complete research projects involving collaboration across institutions, resulting in NLP publications.
- Leverage LLMs to auto-formalize complex reasoning and planning problems.
- Evaluate LLM-as-formalizer in realistic planning tasks with constrained environments.

University of Pennsylvania, Student Researcher — Philadelphia, PA — Sept 2023 – May 2024
- Extract interpretable lexical and stylistic features for authorship attribution.
- Fine-tune BERT Sentence Transformers for embedding-based analysis.

Boston University, Student Researcher — Boston, MA — June 2019 – Aug 2019
- Studied ambiguity in natural language annotations using tracking datasets.
- Designed MTurk experiments using HTML.
